EXPERIENCE

FrontEnd Developer Tutor - Kitale National Polytechnic

JAN 2023 – PRESENT | Kitale, Kenya

Role:

Designs and delivers hands-on training to build user-facing web apps, staying current with web standards and frameworks.

Key Responsibilities:

- Curriculum & Content: Modular lesson plans, slide decks, code labs
- Instruction: Live coding demos, guided exercises, Q&A
- Mentorship: Code reviews, progress tracking, one-on-one support
- Assessment: Quizzes, coding challenges, capstone projects
- Updates: Refresh materials with emerging tools and best

FrontEnd Developer - Partners in Health Research (PHR)

JAN 2020 – DEC 2022 | Busia, Kenya

- Architected responsive UI components using HTML5, CSS3 (Flexbox/Grid) and JavaScript.
- Collaborated on wireframes & prototypes, reducing design iteration by 30%.
- Improved SEO and content standards, boosting organic engagement.
- Optimized front-end performance to achieve 20% faster load times.
- Developed custom WordPress themes & plugins for dynamic content needs.
